**STATEMENT OF RELEVANCE UNDER 37 CFR §1.98 (3) (i)**

Commissioner of Patents  
P.O. Box 1450  
Alexandria, Va 22313-1450

Sir:

We respectfully submit a Statement of Relevance under 37 CFR §1.98(3)(i) for consideration by the Examiner in regards to the reference SE 373 525 included on the attached Form PTO-1449.

In compliance with 37 CFR §1.56(c) we submit the following Statement:

SE 373 525 is relevant as technical background for the present application as it relates to the principle of separate application of glue and hardener in the form of strands to a surface. As mentioned in the background part of the present application, clogging of the orifices in the application heads during stops in the production is a problem using this technology. Said problem is, however, not mentioned in SE 373 525.

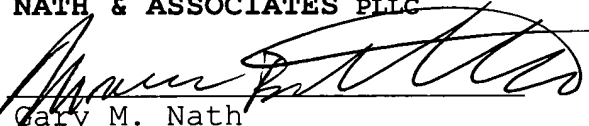

The subject matter of SE 373 525 may be summarized by the following translation of claim 1: "Method for joining of wooden products, preferably laminated wood, by means of separate application of liquid, hardenable resin and liquid hardener, characterized in that the liquid resin and liquid hardener are separately applied to one of the surfaces to be glued by means of two sequentially arranged strand application heads".

Any questions regarding this matter should be directed to the below-signing attorney. The Commissioner is hereby authorized to charge any deficiency or credit any excess to Deposit Account No. 14-0112.

Respectfully submitted,

**NATH & ASSOCIATES PLLC**
